# Clear the Adobe Flash Cache

Clearing the Cache for Adobe Flash is a common troubleshooting step for courseware vendors that use Flash. To clear the Cache associated with Adobe Flash follow the following steps.

1) Navigate a web browser to http://www.macromedia.com/support/documentation/en/flashplayer/help/settings_manager07.html

2) The following webpage will load click on the folder tab circled below.

Then click delete all sites, and when prompted click confirm.
