

Vendor Information

Vendor	Description	Notes	Link
Genius	The student information system (SIS) that WFL utilizes for enrollment, progress monitoring, and communication. This tool allows access for districts, central office, teachers, and parents to work together towards the shared goal of student success.	All communications with all students must be recorded in Genius. Emails sent through Genius will automatically save to the student's profile. All student responses must be copied and pasted into to the communications manually. Also note all communications of non-email forms (phone, text, etc.).	http://waterfront.geniussis.com
Odysseyware	Provides elementary level (3-6) online content for core courses and traditional electives.	Odysseyware grades automatically sync with Genius. Teachers need to continually check for accuracy of the grade reporting in Genius compared to that in the LMS.	http://waterfrontlearning.owschools.com <i>Teacher Resources:</i> Numerous teacher resources are available by clicking on "Help" at the bottom of the page once logged in, and selecting "Browse resources."
Edgenuity	Provides middle/high school online content, including core courses, a variety of electives, AP, and virtual tutor courses.	Edgenuity grades automatically sync with Genius. Teachers need to continually check for accuracy of the grade reporting in Genius compared to the students "Actual Grade" in Edgenuity. (This grade includes zeros for all missing/late work in the course.)	http://learn.edgenuity.com/educator <i>Teacher Resources:</i> Numerous teacher resources are available by clicking on "Support" in the top right corner of the screen once logged in, and selecting eCommunity.
Zulama	Provides unique high school electives that are taught in semester segments. Used for specialized programing.	Zulama grades do not automatically sync with Genius. Teachers need to update grades in Genius within 24 hours of all assignment submissions.	http://app.zulama.com/login
