

Reports and Data

Edgenuity’s learning management system collects and organizes student data to generate a variety of reports available for students, educators, and parents. These reports are available by student, group, course, school, and even for the district as a whole. Standard Edgenuity reports currently available include:

Available Reports

- Single-Student Reports..... 2**

Single-Student Reports

The following reports are available for an individual student.

Course Report

The Course Report provides detailed information about all activities assigned to a student in a selected course and is located within a student's gradebook. This report, in PDF format, can easily be downloaded to serve as an assignment calendar for students, especially when a target date is applied to the student's enrollment.

Teachers can view important metrics such as the total number of attempts a student has for each assignment, the estimated time and total time a student took to complete each assignment, as well as the grade and weighted category of assignments.

Additionally, administrators can customize which of the three available grade metrics are displayed on this report.

Activity	Due	First Attempt	Submitted	Attempts	Est Time	Total Time	Category	Score
Nitara Singh								
Course Report: Lee- AZ- Mathematics 8								
Grade: 8								
Actual Grade: 93.0%								
								
						Created On: 10/18/2019, 01:27 PM		
						Start Date: 08/22/2019 Target Date: 12/23/2019		
						Student Progress: 52% Target Progress: 47%

Edgenuity Learning Management System: Reports Overview

Progress Report

For a single student, the course progress report shows percentage completion, activity scores, activity count (total and completed), and the weighting and overall scores by activity type. This report provides a snapshot of the student's progress and achievement in a single course.

Progress reports can be accessed or printed any time for students and teachers. These reports can be emailed directly to parents or guardians, or they can be set up with access to the Family Portal to view them at any time. As students submit assignments, they receive immediate feedback and the progress report is updated in the live system. Since data is recorded and updated in real time, students can monitor their progress and will know exactly where they stand in relation to completing the course on time.

Progress Reports make it easy to identify whether students are on track to complete courses within the allotted timeframe and determine the grade they have earned for submitted work (overall grade), the grade if they were to leave the class without doing any more work and receive zeros for the incomplete work (relative grade), or the grade in relation to the percentage of coursework completed vs. the percentage of coursework that should have been completed (actual grade).

Visit the Edgenuity Help Center to learn more about [the Progress Report](#).

Session Log

Teachers and administrators can review the amount of time a student has logged in the system, including the amount of time the student had the system open but was idle. Using date ranges, teachers have a weekly overview of total work in addition to a breakdown of individual session work. The attendance log not only tracks student time on task, but it will also allow teachers to view a student's idle time, which could indicate review time or time spent using the student organizer tools.

With the Family Portal, parents and guardians have unlimited access to the student's attendance log. The attendance data for teachers and families is available at any time.

Edgenuity Learning Management System: Reports Overview

Score Overview

The Score Overview allows teachers to monitor student work on a per-course basis. This report not only shows the lesson and activities completed within a course, but it also allows teachers to view the scores, attempts, and submission dates associated with those activities. With sorting and exporting features, teachers can easily assess student progress throughout the duration of the course.

From this report, educators can also see whether any activities require grading. They can view student work from here, review and grade it, and leave feedback for students.

Student's Score Overview

This page is used to pull overall grade data for a student's course. Use the course drop-down list to select the student's course. Pick what types of assignments that you would like to view from the Activity Types drop-down list. If you know the date the student submitted an activity, you can enter that data in the time fields. You can leave the time fields blank to pull all assignments, regardless of what time they were taken.

Course: Lee- AZ- Mathematics 8

Activity Types: All

Edgenuity Learning Management System: Reports Overview

Group Reports

These reports include data for multiple students, groups of students, or for all students in the school or district.

Attendance Log

The Attendance Log provides an overview of student attendance, either for the school or for specific groups of students. Teachers can monitor the Attendance Log to view the total time a student spends daily, the number of assessments completed daily, or to monitor the weekly total time for each student.

Visit the Edgenuity Help Center to learn more about the Attendance Log.

Dashboard

The Dashboard feature is a user-friendly way of managing large groups of students from one centralized location. Teachers and Administrators can easily identify and intervene with students who are falling behind or who need additional support. Students who are prevented from progressing in the courses are also easily managed through the alert system, providing teachers with real-time data so they can effectively manage their students. With the wide range of filters available for courses and students, teachers can narrow the list of students that appear in the Dashboard.

Edgenuity Learning Management System: Reports Overview

Gradebook

The Edgenuity Gradebook displays test, quiz, or activity scores for an entire class, or for a group that you define. Consistent iconography indicates when a student is out of retakes, has submitted an assignment that requires grading, or has reached an assessment that must be unlocked by a teacher. Educators can easily view and grade assignments, change a score, and reset or bypass an assignment.

The screenshot shows the Edgenuity Gradebook interface. At the top, there is a navigation bar with tabs for Students, Courses, Reports, Communication, Administration, and Support. The main content area is titled "Gradebook" and includes a search bar for Subject (Math), Course (Mathematics 6 - MA3106), and Group (Select Group). There are also filters for List (Test Scores, Quiz Scores, Activities), Unit (Relationships on the Coordinate Plane), and Lesson (Distance between Two Points). The main table displays student names, overall progress, overall grade, overall active time, last activity, and scores for various activities (Warm Up, Instruction, Summary, Assignment, Quiz). A gear icon in the top right corner is highlighted with a red circle and the number 1, indicating it is used to customize the columns shown in the table.

Student Name	Overall Progress	Overall Grade	Overall Active Time	Last Activity	Warm Up	Instruction	Summary	Assignment	Quiz
Abraham, Jane	53%	79%	2h 18m	4 days ago	100%	100%	100%		
Adams, Aya	53%	73%	2h 16m	1 days ago	100%	100%	100%	68%	
Bates, William	53%	76%	2h 20m	2 days ago	100%	100%	100%		60%
Fantama, Brian	53%	70%	2h 2m	1 days ago					
Gonzales, Arturo	53%	80%	2h 26m	3 days ago					100%
Griffen, Christopher	38%	74%	2h 2m	5 days ago					
Gruber, Mary	53%	76%	1h 56m	1 days ago	100%	100%	100%	92%	
Guy, Buddy	53%	81%	1h 55m	7 days ago	100%	100%	100%	84%	60%

- 1 Click the gear icon to choose the course-level columns you want to see. Show or hide Overall Grade, Relative Grade, Actual Grade, Active Time, or Last Activity.
- 2 Select the subject and course you want to manage. Optionally, select one or more Groups.
- 3 Navigate between units, topics, and lessons to control the level of detail displayed in the Gradebook. Select Test Scores to see only test scores for the entire course, Quiz Scores to view only quiz scores, and Activities to view every activity score.
- 4 View the class list and click on any student to see their individual gradebook in more detail.
- 5 View overall course progress as compared to target progress to monitor whether students on track for on-time completion.
- 6 View course-level metrics such as course grade, total amount of time spent in the course so far, and how many days it's been since students submitted an activity in the course.
- 7 View the structure of the selected unit, topic, or lesson.
- 8 View scores, alerts, and status indicators. Click on any cell to take action on that activity.

Visit the Edgenuity Help Center to learn more about the Gradebook.

Edgenuity Learning Management System: Reports Overview

Group Progress Report

This report allows educators to monitor the performance and progress of multiple students at one time. The progress overview demonstrates the currently available information about a group of students. The administrator at the school level will be able to view the reports for students enrolled at the site; district administrators will be able to view information for all students in all schools in the district as they navigate from school to school.

Edgenuity Learning Management System: Reports Overview

Lesson Mastery Report

The Lesson Mastery report provides an at-a-glance view of how students are performing in all the lessons in a course, in order to identify and group students for re-teaching. For each lesson, educators can view how many students are struggling with the lesson, how many are active in the lesson, and a number of other statistics. The report can be filtered by standard, and it can be sorted by lesson difficulty or any other of the columns displayed. Educators can drill into any lesson to view which students are struggling and/or active, with visibility into the assessment questions and individual student responses for targeted, real-time intervention.

Edgenuity Learning Management System: Reports Overview

School and District Reports

These reports summarize student and teacher data at the school or district level, and are intended for administrators.

Recent Actions Log

Searchable by student, teacher, action, or date, the Recent Actions Log is an important tool that enables teachers and administrators to monitor the system for updates to accounts and courses.

For example, administrators can review how often grades have been changed by teachers, how many times students have been given a bypass for an assignment or test, and whether new users have been added. Through this report, administrators can monitor teachers to ensure district policies for actions such as changing grades or assigning courses are followed.

Recent Actions Log

This page lists recent actions taken by instructors and administrators. It includes records for items such as changed grades, and added users. Click an item from the actions list below to view information about that action.

Edgenuity Learning Management System: Reports Overview

Courses Within 10% Complete by School and Grade Level

This report allows administrators to summarize how many courses are within 10% complete, by school and by grade level.

Schools	Grade 06	Grade 07	Grade 08	Grade 09	Grade 10	Grade 11	Grade 12	Grand Total
Main Street HS	0	0	0	1	3	10	8	22

Learning Center	1	0	0	3	4	1	1	10
Total	2	2	2	18	19	34	23	100

Course % Complete

This report allows administrators to summarize percentage completion by decile, by school. For example, in the report below there are two students at Main Street Middle School who have completed between 0 and 9.99% of their coursework. There are three students at that school within 10% of completing their coursework.

Schools	0-10	10-20	20-30	30-40	40-50	50-60	60-70	70-80	80-90	90-100	Grand Total

Edgenuity Learning Management System: Reports Overview

Family Portal

Parents and guardians have 24/7 access to Edgenuity's Family Portal, where they can log in to view their child's attendance log and progress report. If desired, teachers can even set up daily, weekly, or monthly emails for parents or guardians (or tutors, court officers, mentors, or other adults with appropriate permission to view student data). When this feature is enabled, parents and guardians will receive regular updates on student progress and activity.

Administrative Report Subscriptions

Edgenuity Learning Management System: Reports Overview

Edgenuity's Account Management team has access to specialized reports that provide additional data metrics for our customer partners. These reports can be delivered ad hoc upon request, or an administrator can request that Edgenuity configure reports to be automatically delivered on a daily, weekly, or monthly schedule. Reports will be emailed via Secure Message, where permitted administrators can download them on demand.

Action Log

This report displays all the educator actions in the LMS that affect students. You can use the Action Log to find specific instances of things such as activities bypassed, assignments reset, or scores changed. You can also use the Action Log to run periodic audits of teacher activity overall.

The Action Log report can be used to determine whether teachers are following various district policies on Edgenuity system usage.

Activity Completion

This report displays the total session time, total active time, and the number of activities completed for each student. The data is organized by school and by day.

The Activity Completion report can be used when you want to compare how much time a student is spending in a course versus how many activities they are completing each day. It is similar to the Attendance Report in the LMS but easier to manage for large amounts of data.

Course Completions Details

This report summarizes progress, completion, and active time by school. The report can be used to monitor student progress and completion rates.

The Course Completions report allows a district to set their completion criteria based on minimum Progress and Overall Grade metrics.

Email Communications

This log captures the sender, recipient, email subject, body, and date and time stamp of emails sent within the Edgenuity embedded email tool.

The Email Communications report can be used to monitor the extent to which teachers use the Edgenuity email system and to investigate instances of educator-student communications.

Gradebook Activities

This report shows students' active course time, which is the elapsed time from launching an activity to leaving the activity via Submit or Save and Exit. The report displays a daily active time summary per student, as well as the start and end times and duration for each activity, as well as earned activity scores. The Gradebook Activities report can be used to help administrators review and correlate daily time-on- task (active time) with activities completed and activity scores.
